

EarlyBirds

The Technology Breakfast

INVITATION
Tuesday
14 May 2019
8.15 h
MeteoViva,
Jülich (D)

A **Cross Border** Networking Event

Get up early and think about tomorrow!

Clever entrepreneurs deal at an early stage with questions of the future and key technologies that may be relevant for the development of their company.

With the "EarlyBirds" event series, we offer a networking platform in a relaxed (breakfast) atmosphere. Here entrepreneurs can exchange market trends with other entrepreneurs and also take advantage of the cooperation with the knowledge and research landscape in the Euregio Meuse-Rhine.

Our next host is MeteoViva. The company's vision is that the indoor climate of every building can be controlled in advance using a model.

With MeteoViva Climate, the company offers a smart data solution patented throughout Europe that makes building technology smarter and more efficient without much effort – manufacturer-independent, cross-technology, forward-looking and intuitive to operate. MeteoViva Climate is used throughout Europe in over 70 large buildings with approx. 1.5 million sqm and almost 13 million euro energy costs.

We look forward to welcoming you!

Your HYPEREGIO Partner

HYPERREGIO – EarlyTech

Initial Aid for Your Innovation

The basic idea of HYPERREGIO - EarlyTech is the active initiation, promotion and improvement of technology and knowledge transfer, the cooperation between universities and small and medium-sized enterprises (SMEs) in the Euregio Meuse-Rhine as well as the support of innovative SMEs in attracting and retaining young people, specialists and managers.

SMEs from the Euregio Meuse-Rhine are invited

- to participate in events and programmes related to cross-border personnel management.
- to get to know our technology transfer managers, who will connect you with suitable, transnational scientific institutes.
- to participate in euregional technology- or industry-specific business-to-science (B2S) events (EarlyBirds Technology Breakfast, Business meets Science, etc.).
- to receive our B2S Voucher: Get a grant of **€ 3,000** to explore an initial collaboration with a scientific institute and achieve your specific technology goals.
