EarlyBirds

The Technology Breakfast in Aachen

INVITATION
Tuesday,
08.05.2018
8.15 h
mecora GmbH,
Aachen (D)

Ein **EarlyTech** Networking Event

Get up early and think about tomorrow!

Clever entrepreneurs deal at an early stage with questions of the future and key technologies that may be relevant for the development of their company. They seek to exchange information with other entrepreneurs on market trends and take advantage of the opportunity to collaborate with the knowledge and research landscape in the Euregio Meuse-Rhine. Their goal is to transform today's problems into tomorrow's successes - through cooperation, projects and with the right partners.

We support you in this. Free of charge, confidential and non-binding.

With the series of events "EarlyBirds" we invite you together with our partners of the euregional project "HYPEREGIO - EarlyTech" to discuss future topics at an early hour. We would like to inspire you to reflect and think outside the box and offer you a networking platform in a relaxed (breakfast) atmosphere with a host entrepreneur.

We look forward to welcoming you!

Your HYPEREGIO Partners

HYPEREGIO – EarlyTech Initial Aid for Your Innovation

The basic idea of HYPEREGIO - EarlyTech is the active initiation, promotion and improvement of technology and knowledge transfer, the cooperation between universities and small and medium-sized enterprises (SMEs) in the Euregio Meuse-Rhine as well as the support of innovative SMEs in attracting and retaining young people, specialists and managers.

SMEs from the Euregio Meuse-Rhine are invited

- to participate in events and programmes related to cross-border personnel management.
- to get to know our technology transfer managers, who will connect you with suitable, transnational scientific institutes.
- to participate in euregional technology- or industry-specific business-to-science (B2S) events (EarlyBirds Technology Breakfast, Business meets Science, etc.)
- to receive our B2S Voucher: Get a grant of **€ 3,000** to explore an initial collaboration with a scientific institute and achieve your specific technology goals.
