A **Cross Border** Matchmaking Event

B2B Matchmaking Smart Industry

Quality control and inspection

A Cross
Border
Matchmaking
Event

The project partners of the HYPEREGIO Innovation2Market project kindly invite you for the Smart Industry Partner matching.

Industry 4.0 is a major challenge for industrial players in our region. It means the integration of a number of technologies into the manufacturing process in order to make it more tuneable, measurable, flexible, controllable... A lot of manufacturers know about the trend, but have no idea how to prepare for it or what to do to be "industry 4.0" compliant. They will certainly need partners to team-up with to face the present challenges.

This matchmaking will tackle the subject(s) of quality control and inspection. The goal is to inform and to bring together people from different stages in the value chain, to exchange experiences and challenges on the topic of quality control and measurements. During the event we will try to match the demand with the offering, the problem with a solution and this in a cross-border way of cooperation.

We look forward to your visit!

Your HYPEREGIO Partners

HYPEREGIO – I2M

Find your Perfect Match!

Do you have a particular "close-to-the-market" innovation and are you looking for complementary cross-border business partners to realize marketable solutions?

HYPEREGIO – Innovation2Market supports you in boosting your mature innovation (TRL 5-8), which is still in a pre-competitive stage!

- Join our interdisciplinary application- and B2B-oriented **euregional events and matchmakings**
- Benefit from the support of our **BDS-managers**, connecting you to other SMEs and – if needed – major enterprises or knowledge institutions
- Receive your B2B-innovation voucher:
Each starting cross-border SME-based R&D consortium is supported by a free **€ 6,000 grant** to develop its innovation
- And benefit from our **assistance in finding** suitable **European and regional fundings** to realize your joint innovation project
