

B2B Match- making

Plastics in Medtech & Life Sciences

INVITATION
Tuesday,
12 February
2019, 9.30 h
TZA Technology
Centre Aachen (D)

A **Cross Border** Matchmaking Event

B2B Matchmaking

Plastics in Medtech & Life Sciences

Plastic is a material with manifold possibilities in medical technology and life sciences. It can be used for disposable products (injections, tubes), for implants and prosthesis or as parts for medical instruments. Throughout all application areas quality control and the validation of the process in medical technology is of great importance. The development of new devices made from advanced materials is also a focus of future challenges in medical technology.

Experts from the Euregio Meuse-Rhine area inform about current trends and challenges of plastic processing for medical devices. Besides the keynote speeches, we organise brief pitches, where SMEs and knowledge providers present themselves, their ideas and what they are looking for. You will also get to know each other in one-on-one meetings to discuss your problem or solution in detail with companies across the borders.

Use this opportunity to find your perfect match!

We look forward to welcoming you!

Your HYPEREGIO Partners

HYPEREGIO – I2M

Find your Perfect Match!

Do you have a particular "close-to-the-market"
innovation and are you looking for complementary
cross-border business partners to realize
marketable solutions?

HYPEREGIO – Innovation2Market supports you
in boosting your mature innovation (TRL 5-8), which
is still in a pre-competitive stage!

- Join our interdisciplinary application- and B2B-oriented **euregional events and matchmakings**
- Benefit from the support of our **BDS-managers**, connecting you to other SMEs and – if needed – major enterprises or knowledge institutions
- Receive your B2B-innovation voucher:
Each starting cross-border SME-based R&D consortium is supported by a free **€ 6,000 grant** to develop its innovation
- And benefit from our **assistance in finding** suitable **European and regional fundings** to realize your joint innovation project
