A **Cross Border** Matchmaking Event

B2B Brokerage Workshop

Smart Materials

Our brokerage workshop on smart materials aims to connect regional and cross-border companies and institutes in the three-country region of Belgium, Germany and the Netherlands.

In concrete terms, the workshop will deal with **Smart Materials & Textiles, lightweight construction** and **3D print**.

We would like to give you the opportunity to get in touch with other regional companies and institutions and to benefit from an exchange of information on cross-border cooperation. In the medium term, your new contacts should provide opportunities for future research and development projects.

Within "HYPEREGIO - Innovation2Market" AGIT mbH and the cooperation partner EurA AG are happy to assist you in the further development of your cooperation and in the search for funding programmes.

Use this opportunity to find your perfect match!

We look forward to welcoming you!
