**KHG Aachen**  
**(D)**

A **Cross Border** Matchmaking Event

## B2B Matchmaking Artificial Intelligence

Artificial intelligence (AI) comprises various technologies with which machines can perceive, understand, act and learn. Autonomous driving cars, robots in elderly care, thinking and speaking computers: AI is a key technology of the future!

Artificial intelligence will fundamentally change the relationship between people and technology, fostering creativity and new skills. AI heralds a new era of productivity. In this disruptive environment, human innovation is faster and more precise than ever before. For the euregional economy it is of great importance to be a leader in this future topic!

In order to advance your own developments in AI, a suitable cooperation partner is of great importance. Our event offers you the opportunity to get to know other companies and their offers and needs - in pitches and one-on-one meetings, where you can discuss questions or exchange initial ideas for possible cooperation.

Use this opportunity to find your perfect match!

**We look forward to welcoming you!**
