

External Support → Call Aspera Global

Todo: - Review Compliance
- Request Reports

Check inventory and data
→ use tool!

Aspera is a highly specialized provider of solutions for software license management and is the number 1 choice for Fortune Global 500 companies. We have been working in this exciting field for more than 17 years with our experienced teams in Aachen, Cologne and Marburg. In order to further extend our growing business we want to strengthen our team with a dedicated:

Product Manager for our Product

“License Control for SAP” (m/f)

located in Aachen / Cologne

Responsibilities:

- Strategic management of Aspera product “License Control for SAP”
- Business responsibility including creation/management for “SAP” dedicated products, and being
- Product Management Team member for “also SAP related” products
- Collecting/giving feedback of prospect/customer requirements into product development
- Support to engineer requirements definitions and bring them into production interface
- Align needs of and with internal and external customers

Qualifications:

- A university degree in business studies, computer science or similar qualifications
- Experience in Product Management or similar role, preferably with close customer contact
- Ideally experienced in Software Asset Management practice
- Creative thinker combined with a methodical approach
- Excellent communicator and presenter
- Experienced in personnel management
- Willingness to travel
- Fluent in English and if possible also German

We offer:

- Interesting role in a growing, agile company
- Cooperation with interdisciplinary and international teams
- Individual continued education
- Room for personal development
- Whatever you may need to rise to new challenges

Have we sparked your interest? Then we look forward to your complete application documents, which you can email to us at jobs@aspera.com. Silke Karius is available if you have any questions, please call +49 241-963-3226.
